Introduction to Norwest

Founded in 1998, Norwest Foods International Ltd. set its ambitions high with the desire to become a market leader in the import and export of fresh and frozen meat, poultry and fish.

Whilst our initial trading activity focused on trade between the UK and the EU, this approach combined with our reputation, experience, and reliability, has allowed us to build a strong and reputable presence trading across all continents. We pride ourselves on our reputation as a trusted trading partner which is evident given our continuous international growth.

Throughout our history we have seen continued growth and success, a result of the constant evolution and improvement of the services we can offer. This is made possible by utilising the skillsets of a strong and passionate team of individuals across our commercial, technical, logistics and finance departments.

COMMERCIAL
SUMMARY

Food Safety & Quality

Norwest Foods is dedicated to ensure that all operational activities, storage and distribution meet the highest standards. We maintain our Quality Management Systems and controls to ensure our clients' specific requirements are satisfied in line with industry best practices, customer considerations and to GFSI benchmarks. We believe that an open and honest technical approach between the supplier, ourselves and the client is paramount.

Norwest Foods became BRCGS Agents and Brokers certified in 2017 (version 1). The business has successfully completed recent audits against version 3 of the BRCGS Broker standards with 0 non-conformances, becoming the first company to achieve 0 non-conformances throughout its audit history.

These certifications are very important to us as it gives assurances to our trading partners that we maintain a strong control in our due diligence and ensure we are continuously up to date with matters concerning food safety and legality.

Finance

The finance department at Norwest Foods is primarily tasked with the stewardship of the company's income, expenditure and controlling its assets and liabilities. As a company operating across the globe, we deal with multiple currencies and utilise many banking platforms to ensure our trading activity is not prohibited by finance.

We have an efficient team of committed individuals who take ownership in ensuring our ledgers are as up to date as possible and our trading accounts are settled within agreed terms. We also ensure we have strong relationships with third parties such as our bankers, auditors, insurers and HMRC, supplying them in a timely manner with data as required. Our Finance Director reports management information back to the business frequently, an important function allowing the company to maximise opportunities and continue growth.

Logistics

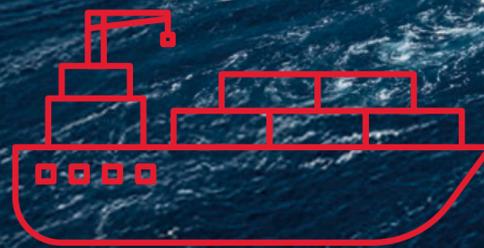

At Norwest Foods we have a highly experienced team within our Logistics department, specialising in the movement of fresh and frozen products across the globe. As our business has grown, we have streamlined our processes and hand-picked our team to ensure we have a varied skillset across the department. This gives us the ability to understand the dynamics needed to provide the best service and satisfaction to our trading partners.

Most of our volume is distributed utilising 40ft high cube reefer containers, however we also work frequently with various other forms of freight including euro rails and airfreight.
